

TAZIO NUVOLARI  
EDITION LIMITEE  
GRAND PRIX 

USER MANUAL

**T**he Eberhard & Co. watch manufactory was founded by Georges-Emile Eberhard at La Chaux-de-Fonds back in 1887. Ever since, the venture has specialised in the making of chronographs.

In this capacity, it has attained a highly respected position in the world of high-grade watches. With the introduction, at a later stage, of sportively elegant watches it has furthermore augmented this status of the Eberhard & Co. brand name.

Eberhard's success story is backed by consistent deployment of advanced technology, meticulous craftsmanship and, not least, by observing that long tradition of superior workmanship which has made Swiss watchmaking a household name.

Today, with well over a century gone by, watches by Eberhard & Co. continue to stand for that high-grade quality and those excellent virtues which will please even the most demanding of connoisseurs.

# TAZIO NUVOLARI EDITION LIMITÉE GRAND PRIX TN 2010

With this precious limited edition of 999 pieces the Maison Eberhard & Co. pays homage to the memorable "Flying Mantuan" and to the world of races and vintage cars.

The "Tazio Nuvolari Edition Limitée Grand Prix TN 2010" is a modern and sophisticated chronograph, whose dominant chromatic white tone characterizes the ceramic bezel, the engravings on the caseback and the alligator strap, further enlivened by red stitching. The details are unmistakable: black dial with large Arabic numerals, and flange with *black or* treatment and circular-grained finish. On the dial, the unique and exclusive symbol of the driver: a stylised tortoise personalized with the initials "TN", as expression of the deep-rooted values of the sportive motor racing. On the dial, the unique and exclusive symbol of the driver: a stylised tortoise personalized with the initials "TN", as expression of the deep-rooted values of the sportive motor racing.

## INFORMATION REGARDING THE INTERNATIONAL GUARANTEE

We hereby guarantee your Eberhard & Co. watch against any defects in manufacture or materials for a period of 24 months, subject to normal conditions of use.

This guarantee does not cover:

- damage caused by improper technical handling or by shocks
- wear to the strap, glass, crown or any other part during normal watch use.

For technical revisions of the Eberhard & Co. "Tazio Nuvolari Edition Limitée Grand Prix 2010" model please contact only technical service facilities authorised by Eberhard & Co. The eventual shipping and insurance charges are to be paid by the owner.

We recommend to have the movement checked and overhauled every two years.

For our part, we shall always endeavour to give full satisfaction.

- A Pushbutton to start and stop the chronograph device
- B Pushbutton for setting to zero all hands of the chronograph
- C Screw-in crown, water-resistant
- D Hour hand/watch
- E Minute hand/watch
- F Centre second-hand/chronograph

- G Minute hand/chronograph
- H Hour hand/chronograph
- I Tachymeter scale on the dial for speed in km/hour
- L Tachymeter scale on the bezel for speed in miles/hour

## CHARACTERISTICS

Automatic chronograph movement, 28800 vibrations, shock-resistant, antimagnetic, 25 jewels. Micrometric index (regulator) for fine adjustment of the watch rate. “Glucydur” balance wheel; this regulating part of the movement is made of a stainless alloy for compensating the variations in temperature and it secures the stability of the rate of the watch. Sapphire glass, anti-glare.

## DISTINCTIVE FEATURES

Our technicians have developed the chronograph device of this particular model for an optimal reading of short time intervals (60 seconds) and long time intervals (minute and hour counters).

Easy reading and high visibility due to the large diameter of the counters.

The “Tazio Nuvolari Edition Limitée Grand Prix 2010” model is characterised by the following features:

- luminescent numerals and hands with high visibility
- time-taking to 1/5 of a second
- time-taking of up to 30 minutes
- time-taking of up to 12 hours
- tachometer scale in km/hour on the flange with *black or* treatment and circular-grained finish
- black tachometer scale in miles/hour engraved on the white ceramic bezel (1 terrestrial mile = 1609 metres).

The “Tazio Nuvolari Edition Limitée Grand Prix 2010” model is available in the following version:

- case and pushbuttons in high-grade stainless steel, with alligator strap or steel “Charme” bracelet with clasp featuring a stylised 18 ct. gold reproduction of the mascot tortoise

The water-resistance is guaranteed up to 3 atm.

The caseback features white engravings and is secured by 8 screws to ensure perfect water-resistance.

## USE OF THE CROWN

POSITION A - Screw-in crown. In this position water-resistance guaranteed

POSITION B - To unscrew the crown, turn it counter-clockwise.  
Position for hand-winding the movement

POSITION C - Neutral position of the movement

POSITION D - Time setting

## DIRECTIONS FOR USE OF WATER-RESISTANT WATCHES

The "Tazio Nuvolari Edition Limitée Grand Prix 2010" model resists unintentional contact with water (rain or small splashes), but it is not fit for swimming, plunging or diving activities. Important: do not pull out the crown nor activate the pushbuttons as long as the watch is wet. We strongly recommend that you have the water-resistance checked at least once a year by a qualified technical service facility in order to find out if the gaskets need to be replaced.

## PUSHBUTTONS

Make sure pushbuttons are always pressed in following order:

**A** : start

**A** : stop

**B** : return to zero

Abide by this sequence quite severely so as to preclude damage to the mechanism.

Don't activate the pushbuttons under water since they are not watertight while being pressed.

## OPERATING INSTRUCTIONS FOR THE CHRONOGRAPH

Press pushbutton **A** to start the chronograph. Press it again to stop it. This will make it possible to read the counters (seconds, minutes and hours elapsed). Press pushbutton **A** again and the chronograph will function again after the intermediate stop. To reset to zero, the chronograph must be in the stop position and, by pressing the second push button **B**, all the hands will return to zero. You are recommended not to have the chronograph mechanism running constantly.

## TACHOMETER SCALE - TACHOMETER SCALE IN KM/HOUR - BASIS 1000 M - ON THE DIAL

The outer rim on the dial shows the data needed for metering the speed of a vehicle over a distance of 1,000 metres. The moment the vehicle passes the first reading mark, the beginning of said 1,000 m distance, activate the hand **F** of the chronograph to start it and press again to bring it to a stop at the moment the vehicle passes the second reading mark. Said hand **F** will now indicate the average speed reached in km/h in tune with the tachometer scale. Example: when one kilometre is covered within 45 seconds, the average speed displayed by the centre second-hand **F** on the tachometer scale will be tantamount to a speed of 80 km/h.

## TACHOMETER SCALE IN MILES/HOUR - BASIS 1000 M - ON THE BEZEL

To measure the speed in miles proceed as explained above for the km/hour, but read the speed in miles on the engraved scale on the bezel of the watch case. Example: if one kilometre is covered in 45 seconds, the average speed indicated by the centre second hand of the chronograph on the tachometer scale is 49.7 miles per hour.
